OBJECTIVE

Focused and dedicated programmer with 2 years of professional experience in web development seeking a technically challenging software engineering role.

SKILLS

Programming: JavaScript, React, D3, Jasmine, Enzyme, Selenium, Raven, Python, HTML, CSS
Software: Git, Sentry, Confluence, Jira, VSCode, WordPress

WORK EXPERIENCE

SOFTWARE ENGINEER

September 2018 - May 2019

HubSpot

- Implemented new features and usability updates for HubSpot's Chrome and Outlook Extensions (React)
- Filled out test matrix by adding unit and automated acceptance tests of functionalities across all apps (Jasmine, Enzyme, and Selenium WebDriver)
- Resolved over 30% of Sentries and Jiras across team-owned applications by targeting and fixing bugs
- Designed and implemented the "Fire Alarm" system in the extensions which notifies users of any problems with HubSpot's products
- Leveraged Microsoft's Office API to upgrade email tracking in the Outlook extension

SOFTWARE ENGINEER INTERN

June - December 2017

HubSpot

- Abstracted out CRM contact properties for use in the HubSpot Sidebar (React)
- Added unit tests for new and existing CRM functionalities (Jasmine and Enzyme)

ASSOCIATE ALGORITHM ENGINEER

July 2016 - January 2017

ChoiceStream

- Designed and developed business intelligence tools for analytical workflows (JavaScript and various graphing libraries)
- Developed a suite of data visualizations on client data for internal analysis (D3)
- Prototyped novel data visualizations for client use
- Demoed prototype software projects to department heads to help develop product path

PRODUCT MANAGEMENT INTERN

January - July 2015

Datawatch

- Determined trends in data analytics software by analyzing competitors' products

PROJECTS

SPOTIFY TOP 100 VISUALIZATIONS

February 2017

- Web app that displays visualizations based on analysis of a Spotify user's top tracks for a year (Javascript and D3)

INTERESTS

Music (percussion, flute, music production/composition), Arabic study, snowboarding, skateboarding

EDUCATION

NORTHEASTERN UNIVERSITY, Boston, MA

Bachelor of Science in Computer Science, May 2018
